FLOW CONE & PLATE

TECHNICAL SPECIFICATIONS

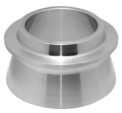
Robust heavyweight stainless steel liquid screed slump testing flow cone and plate.

BENEFITS

- **Designed & manufactured for testing the slump/flow of liquid flowing screeds in accordance with BS8204-7**
- **Ideal for use with free-flowing, self-levelling liquid screeds such as Breedonflow Screed, Isocrete, Gyvlon, Supaflo and many more**

HOW IT WORKS

TECHNICAL DATA



SKU	FLW001	FLW002
Weight	980g	2545g
Dimensions	L110mm, W110mm, H60mm	L400mm, W400mm, H2mm
Material	Stainless Steel	Stainless Steel
Corrosion resistant?	Yes	Yes
Applications	Liquid Screed	Liquid Screed
Box Qty	n/a	n/a
Pallet Qty	n/a	n/a

IMPORTANT INFORMATION:

- Not suitable for concrete slump testing.
- Rinse with water between jobs to remove any built up screed and chemicals before they set

Wear appropriate PPE & avoid skin contact with wet screed

Ensure the flow plate is on a level surface before slump testing
