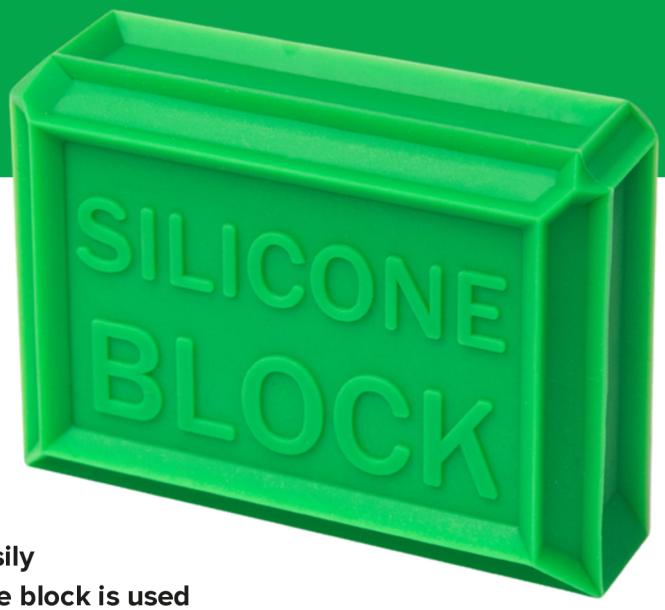
SILICONE BLOCK PRO

TECHNICAL SPECIFICATIONS



Easy grip silicone sealant finishing tool. Produces consistently neat 4mm & 6mm silicone joints and 3-way corners with just a few swipes.

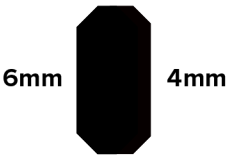
BENEFITS

- **Ideal for sealing shower stalls, bathtubs and sinks**
- **Creates consistent vertical & horizontal silicone joints easily**
- **4mm or 6mm bead height depending on which side of the block is used**
- **No bead dents when going over grout joints**
- **Forms sharp 3-way internal corners**
- **Works behind taps and in tight areas - only 25mm wide**
- **One tool for all sealant jobs - no multiple parts needed**
- **Leaves a clean straight edge in the joint - no trough in which water could gather**

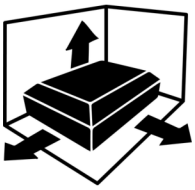
HOW IT WORKS

1. Apply silicone to tile joint

2. Spray block with soapy water or glass cleaner

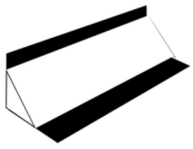


3. Choose 6mm or 4mm bead width



4. Suitable for 3-way internal corners

5. Clean block of sealant & repeat



6. Finished silicone bead

TECHNICAL DATA

SKU	SBL004
Weight	85g
Dimensions	W55mm x L75mm x H25mm
Material	Silicone compound
Flexibility	Semi-flexible
Applications	Silicone finishing
Side 1 bead height	4mm
Side 2 bead height	6mm
Box Qty	40
Pallet Qty	n/a

IMPORTANT INFORMATION:

- Spray block intermittently with soapy water during use to minimise silicone sticking
- Wipe block & blade edges clean after use
- Dried residue of most silicone sealants picks off the block

Avoid contact with solvent cleaners
